# Medicare Beneficiary Quality Improvement Project (MBQIP)
## Pharmacist CPOE/Verification of Medication Orders within 24 Hours
## Quarterly Data Reporting Flow

**Hospital pulls quarterly numerator and denominator from Pharmacist Verification Report\* and sends to Flex Coordinator**
Note: method to be determined on a state by state basis: Excel, email, etc.

↓

**Flex Coordinator compiles numerator and denominator for all CAHs in state using standard Excel template**
Note: Template will be provided

↓

**Flex Coordinator submits compiled Excel form for state to ORHP through PIMS**

↓

**ORHP aggregates data files from all states and submits all data to Telligen for creation of MBQIP hospital and state reports**

↓

**ORHP receives MBQIP reports from Telligen and distributes to Flex Coordinators via established secure method**

↓

**Flex Coordinator distributes reports to CAHs**
